About Your Find Success Report

This report is to pinpoint times when card influences from your yearly spreads point to success in your work or profession. This program has searched your yearly spreads for every occurrence of cards that have been known to indicate promotions in your job, success with the public or gains in your popularity. Some of these influences may also bring financial gain but they are specifically pointing to success and gains in your reputation or broadening the scope of your business success.

Many of these influences depend upon certain conditions. For example, some of them only seem to work if a person has their own business. When this is the case, it is mentioned in the interpretation. Also, anyone reading this report should realize that their work situation has a great deal to do with how these card influences will express themselves. For example, someone who is retired or unemployed will show little effect from any of the good success cards. This report is really for those who are seeking to reach a higher position in life or in their business.

The Days in Effect

Each card either influences a 52-day period of the year, or the entire year. The ones that influence an entire year are more powerful in general, but usually those cards' influence is not felt until the Mars period of the year, which begins around 150 days after a person's birthday. But some of the 52-day period cards can be quite powerful, so check out their Power Rating.

The Power Rating

Each card found has a power rating, which is a number from 1 to 10 of just how powerful this card has proven to be in other people's spreads. Cards with power ratings of 7 and above are the strongest.

Maximizing Your Best Success Cards

If you are getting this report and want to get the best use from it, pinpoint the times in which you have strong power rating success cards and plan your business activities to coincide with those dates. For example, if you saw a great success card coming up in a certain 52-day period, make plans to do something, like introduce an advertising campaign or publish a book, during that time period. This has been shown to be a very effective strategy.

The position and card found are listed next, for those card-science students who want to research these influences more. And finally, a brief interpretation of each influence is given.
